SHEQ POLICY STATEMENT

The Safety, Health & Environment of our employees and the public are paramount to GOOD FUTURE RELOADED. We believe that safe operations and preservation of environment are essential part of our business activities. GOOD FUTURE RELOADED commitment is to maintain a safe, injury free work environment and to be in compliance with all legal and other requirements

To accomplish this goal, GOOD FUTURE RELOADED will commit the necessary engineering and technical resources, encourage the development of safe work attitudes, develop and communicate safety programs and standards, and provide safety and environmental training and discipline throughout our project sites by:

- Compliance with all application legislations, regulations and other requirements
- Continual improvement in environmental, health and safety performance
- Promoting the conservation of natural resources
- Ensuring operational safety and reduce risks of people, plant, machinery and environment
- Improving workplace conditions through training and involvement of employees, contractors and concerned statutory bodies

We also believe in:

- ✓ The right of our employees to work in a safe and Healthy Environment.
- ✓ The right of the community to a pollution free environment
- ✓ The right of our customers to consistently excellence quality of our service.

The safety, Health and Environment (SHE) Policy is documented, implemented, maintained and communicated to all employees, contractors and sub-contractors through various methods and is made available to the stakeholders and public upon request.

QUALITY POLICY STATEMENT

GOOD FUTURE RELOADED is committed to:

- Providing customers with high quality installations and services which meet requirements and are fit for their purpose.
- Enhancing the skills of management and staff through review and actively pursuing an on-going training policy, the objective of which is to prepare staff to perform their work more effectively.
- Promoting the culture of continual quality improvements and the philosophy of getting things "right first time".
- Continually testing our methods against the latest trends technology and will adapt, were applicable, to ensure that we stay abreast in the respective fields we operate in
- The management of the company intends to ensure that their Quality Management System remains relevant and meet the aspects mentioned in their Quality Statement by ensuring that the following happens.
- Management will make available the resources, tools and equipment required to ensure that all work is performed within the framework of the quality Management System and client specifications
- The management team of the company is committed to maintain the high standard of Quality Management functions to ensure that all services provided under their supervision and control meet the requirements on with their customer
- Rigorously controlling the supply, installation and completion to programme of all projects.
- Promoting the quality management systems and ensuring implementation is achieved by internal auditing, management review, corrective and preventive action.

Everyone is responsible for the quality within the company and for maintaining high standards.
